

VEGABAR series 80 HART SIL

Version	Description
1.03.02-01	Error corrections: <ul style="list-style-type: none"> Removed faulty status image (bugfix for registration)
1.03.02-00	Error corrections: <ul style="list-style-type: none"> Dynamic behaviour of the EDD improved for AMS
1.03.01-02	Error corrections: <ul style="list-style-type: none"> Possibility to limit adjustable units
1.03.01-01	Error corrections: <ul style="list-style-type: none"> Execution of methods with upcoming error status
1.03.01-00	New functions: <ul style="list-style-type: none"> Support of further HART Common Practice Commands Position correction with application "Density-compensated level" added Error corrections: <ul style="list-style-type: none"> Unit "Distance of sensors" corrected Selection list for HART variables adapted
1.02.02-00	Error corrections: <ul style="list-style-type: none"> Data type adaptation for Device Revision 3 for compatibility reasons
1.02.01-00	New functions: <ul style="list-style-type: none"> New application "Density-compensated level" Single layer correction in Slave mode Thermoshock suppression for Master and Slave can be adjusted separately Selectable menu languages for PLICSCOM extended by Chinese and Japanese Error corrections: <ul style="list-style-type: none"> Presentation of the handheld host is now more clearly
1.01.03-00	Error corrections: <ul style="list-style-type: none"> Data type adaptation for Device Revision 3 for compatibility reasons
1.01.02-00	Error corrections: <ul style="list-style-type: none"> Data type adaptation for Device Revision 2 for compatibility reasons

Versions history EDD

Version	Description
1.01.01-00	<p>First DD version for adjustment</p> <p>Applications:</p> <ul style="list-style-type: none"> • Process pressure • by means of dielectric constant • Flow • Differential pressure (in conjunction with electronic differential pressure) • Density (in conjunction with electronic differential pressure) • Interface (in conjunction with electronic differential pressure)
