CITC Final Comment

Dear Sir You should arrange with SASO, Regarding this kind of devices. Also, The communication part should comply with CITC technical Specification, Please check:

http://www.citc.gov.sa/en/RulesandSystems/RegulatoryDocuments/EquipmentApproval/Pages/Technical_Specification.aspx Best Regards

Note: This decision does not exempt the need to comply with national requirements by *Saudi Standards, Metrology and Quality Organization (SASO)*. The registration on SABER online platform as SASO's one-stop-shop for the conformity requirements for the trade to be able to secure the certificates of conformity, allows importer to register products for importing and clearance of shipments at Saudi customs (details on <https://saber.sa>).

For a simplified overview about approval processes in Saudi Arabia, please have a look on graph in attachment *TAS-Process_Saudi Arabia (KSA)_2020-04-01.pdf*.

Best regards,
