

#### Reliable

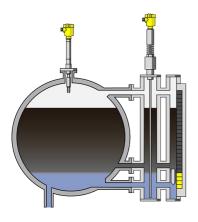

Redundant measurement for highest safety standards

# Cost effective

Maintenance-free operation

# **User friendly**

Easy installation

# High temperature separators

# Level and interface measurement and point level detection in high temperature separators

Exact interface measurement in high temperature separators is important for ensuring the quality of the separation process. Continuous control of the interface between oil and water ensures that oil is not inadvertently withdrawn instead of water. This saves costs and increases the efficiency of the plant. A vibrating level switch serves as an additional overfill protection mechanism.

#### More details

# **VEGAFLEX 86 and magnetic level indicator**

Guided wave radar sensor and magnetic level indicator for level and interface measurement

- Redundant measurement through the combination of guided radar sensor and magnetic level indicator
- Evaluation of two different measured values possible: level and interface
- Totally reliable measurement, even with emulsions

# **VEGASWING 66**

Vibrating level switch for overfill protection in separators

- Additional security thanks to diverse redundancy
- Easy setup without medium saves time and money
- Increased plant availability, as function test can be performed during operation

### Measuring range - Distance

#### Process temperature

-196 ... 450 °C

# Process pressure

# -1 ... 400 bar

Accuracy

±2 mm

#### Version

Coax version ø 21.3 mm with multiple hole Coax version ø 42.2 mm with single hole

Coax version ø 42.2 mm with multiple hole Exchangeable rod ø 16 mm

Exchangeable cable ø 2 mm with gravity weight

Exchangeable cable ø 4 mm with gravity weight

Exchangeable cable ø 2 mm with centering weight Exchangeable cable ø 4 mm with centering weight

## Materials, wetted parts

Alloy C22 (2.4602)

316

# Threaded connection

≥ G34. ≥ 34 NPT

# Flange connection

≥ DN25, ≥ 1"

# Seal material

FFKM

graphit and ceramic

# Housing material

Plastic

Aluminium

Stainless steel (precision casting)

Stainless steel (electropolished)
