

#### Reliable

Fast reaction time guarantees a timely shutdown

### **Cost effective**

Optimum performance through non-contact measurement

### **User friendly**

Simple setup and commissioning

# Meat pellets conveyor

### Monitoring of the conveyor belt

The finished meat pellets and kibbles are fed onto a conveyor belt ready for packaging to be sold as pet foods. In order to ensure a continuous supply of meatballs, the conveyor belt requires careful monitoring.

More details

## **VEGAMIP 61**

Microwave sensor for non-contact monitoring on a conveyor belt

- Fast switching ensures safe shutdown
- Simple setup and commissioning with control keys
- Simple installation, measurement right through conveyor belt and viewing window
