

#### Reliable

Measurement technology unaffected by buildup and soiling

#### Cost effective

Absolutely maintenance-free measurement technology

#### **User friendly**

The level can be read-out from anywhere

## Feeding barges

# Level measurement and point level detection during the distribution of feed pellets

To feed the fish, automatic systems distribute feed pellets from the storage containers. In floating facilities, there are several storage containers located next to the "grow-out tanks" for this purpose. These are continuously monitored in order to reliably measure the amount of feed extracted. In this way, evenly distributed feed quantities can be ensured over the entire lifetime of the fish.

#### More details

#### **VEGAPULS 6X**

Non-contact level measurement with radar in the storage tank

- Reliable measurement, unaffected by dust and buildup
- Simple wireless data transmission and remote diagnosis
- Exact measuring results thanks to good focusing

#### **Show Product**

### **VEGA Inventory System**

Software for data acquisition and visualisation of level data

- Easy access to live data around the clock
- Accurate, up-to-date information on tank levels
- Simplified management through a wide range of functions
- Fully automatic and timely notification of re-supply requirements
- Increased security of supply

#### **Show Product**

#### **VEGAWAVE 61**

Vibrating level switch for level detection in silos

- Reliable detection ensured by robust sensor construction
- Maintenance-free measurement technology, therefore no maintenance costs
- Switching point independent of product or environmental influences

#### **Show Product**

Measuring range - Distance

Process temperature

-50 ... 250 °C

Process pressure

-1 ... 25 bar

Version

Standard

Detection of solids in water with temperature adapter

Materials, wetted parts

316L

Threaded connection

≥ G1½, ≥ 1½ NPT

Flange connection

≥ DN50, ≥ 2"

Hygenic fittings

Clamp ≥ 2", DN50 - DIN32676, ISO2852

Seal material

no media contact

Housing material

Plastic

Aluminium

Stainless steel (precision casting)

Stainless steel (electropolished)

#### Measuring range - Distance

120 m

#### Process temperature

-196 ... 450 °C

#### Process pressure
